

Roy & Penny's house is 2.5 miles from the stoplight at the center of Star. Cross the railroad tracks and bear left on the main road. When you have crossed the second set of railroad tracks, you have gone about one-third of the way. Look for a gray house near the road, then the caution sign for a set of curves on the road. As you approach the latter, look for a partially completed house on the right with a densely at the start of the driveway. Their house is in back of the incomplete house.
